Dear Sirs:

**RE: PUBLIC WORKS EQUIPMENT STORAGE BUILDING CONTRACT #242**

On behalf of the District of Kitimat, I congratulate Progressive Ventures on a "job well done" for the above Contract. From the tendering stage to completion of deficiencies, we appreciate your firm's diligence and honesty throughout.

This project was tendered as a "design-build" contract, using the CCDC14 format -- something new to the District. The contract was awarded late in the year when inclement weather can delay shipments and construction. Despite the above, the contract time was extended only by one week and we were able to keep the project on budget.

We thank you for your efforts in this contract and look forward to working with you in the future.

Yours truly,

Mark F. Allen, P. Eng.  
Assistant Municipal Engineer
