WITH LOCAL EXPERTISE

DISCOVER HOW WE CAN
SUPPORT YOUR NEXT PROJECT

Who We Are.

For over 50 years, Progressive Ventures has been a trusted construction partner in Northwest BC and beyond. We deliver high-quality projects across industries—on time and on budget.

- **Full-service capabilities**

From design-build to general contracting

- **Locally based, deeply invested**

Our team lives and works in the North

- **Proven commitment** to safety, sustainability, and community partnerships

Built for Growth. Built for the Future.

Progressive Ventures has grown with the Northwest to meet increasing demand and deliver larger, more complex projects.

- **Expanded service capabilities**

Steel structures, logistics, infrastructure

- **Strategic local partnerships**

First Nations, regional suppliers

- **Investing in talent**

Apprenticeships, career development, strong retention

- **Scaling to meet demand**

Ready for major industrial, commercial & community projects

Safety First. Sustainability Always.

Safety and sustainability aren't just policies—they're how we work, every day, on every site. From rigorous safety protocols to responsible building practices, we take action to protect both people and the land.

- **COR certified & industry-leading safety practices**

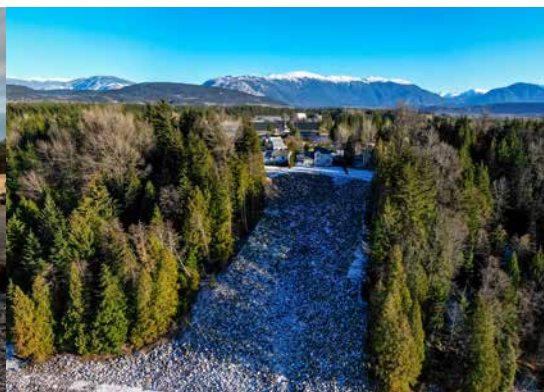

- **Zero-accident goal through rigorous protocols**

- **Sustainable practices**
waste reduction,
responsible sourcing

Ridley Island Energy Export Facility, Alta Gas, Prince Rupert

Delivered major concrete works for this large-scale LPG export terminal in Prince Rupert. Maintained high production output and met key milestones while upholding strict safety standards.

McConnell Slide, Terrace

Complex riverbank stabilization and rip rap armouring on an environmentally sensitive site. Completed within WorkSafe and DFO requirements, on time, with strong community and stakeholder satisfaction.

Prince Rupert Regional Hospital, Emergency Room Renovation

Multi-phase renovation of Emergency Department and main entrance, including vestibule and shower construction, equipment re-installation, and strict compliance with Infection Control and Mobile Medical Unit integration.

Full-Service Construction. Backed by Expertise.

We deliver seamless, high-quality builds from concept to completion.

- **Construction** Design-build, renovations, maintenance
- **Earthworks & civil infrastructure** Excavation, grading, roadwork
- **Metal buildings** Structural steel & pre-engineered structures
- **Trucking & logistics** Fleet serving Northern BC & Yukon
- **Design-build & pre-construction** Feasibility, permitting, budgeting
- **Construction management** Project oversight, scheduling, quality control
- **General contracting** Trusted suppliers, experienced teams

Affiliated Companies. A Connected Ecosystem.

Working with our network means faster timelines, smoother execution, and a more seamless project experience.

Freight forwarding, cross-docking, trucking

Progressive Ventures Real Estate
Commercial & industrial property management

NSD Inland Port Site,
Terrace

Construction of a 44-acre rail trans-load facility including civil, rail, water, storm, and utility infrastructure. Over 100,000m³ of material moved, with complex coordination and successful completion.

Kermode Friendship Centre,
Terrace

A design-build project which entailed overseeing re-zoning and development permits, facilitation of design workshops with the owner, and construction of a new multifunctional facility.

Atlin Terminal,
Prince Rupert

Window Renovation. Removal, repair, and re-installation of 17 exterior second-floor windows. All assemblies brought up to code, re-sealed, re-trimmed, and finished to meet building standards.

Building the Future of the Northwest.

Haisla Youth Centre, Kitimaat Village

Design and construction of a two-storey wood and steel youth centre providing a safe, welcoming space for children and elders. Delivered in full collaboration with trades and community.

What Our Clients Say

PV completed an impressive 11,500 sq. ft. expansion and a 21,000 sq. ft. renovation 30 days ahead of schedule and right on budget.

Brian Kennedy,
Terrace Totem Ford Sales

PV has been the General Contractor on many of my projects, including a Gold LEED project for BC Housing. Their ability to execute complex designs with precision is exceptional.

Dan Condon,
Architect, MAIBC

Thank you for your great work on the Smithers Provincial Government Building. Your professionalism and attention to detail gave me complete confidence in your team. Given the project's complexity, your expertise was instrumental in its success.

Brent Wame,
BC Buildings Corporation

We are grateful for the outstanding facilities PV has built for us. Their workmanship is second to none, and their collaboration was seamless. We would gladly invite them to bid on future projects.

Bob Williamson,
Manager of Construction, SAAN Stores

On behalf of the District of Kitimat, I congratulate PV on a job well done. From tendering to completion, we appreciated your diligence and honesty throughout.

Mark F. Allen,
Assistant Municipal Engineer

PV stepped in at a critical time to rescue a stalled retrofit of two apartment buildings, each with 44 suites. Their organization and efficiency got the project back on track—on time and within budget.

Erika Gerson,
MAIBC Boni Maddison

Muks Kum OI Housing Society has partnered with PV on design-build projects and major renovations for over 20 years. Every project has been a smooth and professional experience.

Danny Sheridan,
Executive Director

PV completed our project on schedule, within budget, and with minimal disruption to daily operations. Their open communication and team approach were a key to success.

Paul Estlin,
Project Coordinator, Workers' Compensation Board
